

superScale 2025

General

There is still a restriction regarding the participating vehicles at the superScale: Wraith and similar will not be admitted.

It is about the type of vehicle: Wraith, Yeti, RR - so "Racer".

These do not fit from the concept to the superScale or the scale idea, as it should be implemented at the superScale.

In this context, we also do not want to discuss whether a Wraith can be moved slowly and thus also scale.

This could also be discussed in relation to buggies, SC, monsters, rally - these are just as not allowed within the scope of superScale.

As before, there will be access restrictions for the various scale areas.

The Freescale area, in which the popular Redrock bridge is also used, is therefore only accessible for vehicles with a total width of up to 250mm and a maximum wheel diameter of 120mm. The Traxxas TRX 4 are the vehicles that just fit with 248mm or TRX6 with 249mm width. Due to their length, the TRX6s are already the extreme on the tracks - it gets very narrow in a number of curvy places...

For the Scaleventure area, vehicles up to 230mm total width and 105mm wheel diameter are allowed. Furthermore, only hardbody vehicles (i.e. no Lexan, or similar) are allowed there.

Here, those who build "scale" should be able to let off steam and measure their skills with challenging terrain. In order to be able to use here also in peace your board aids.

The number of cars that can drive here at the same time is controlled by the superScale team of helpers working there. This ensures that the route sections can be experienced "in comfort".

Opening hours 2025

Friday, June 6, 2025

Paddock open from 3pm.

All other areas are closed.

Saturday, June 7, 2025: 9 a.m. - 7 p.m.

All areas open, lunch break from 12:30 p.m. to 1:30 p.m. (all areas closed, track maintenance).

Saturday, June 7, 2025: 10 p.m. - 12 p.m.

Night ride in the Freescale area

Sunday, June 8, 2025: 9 a.m. - 6 p.m.

All areas open, lunch break from 12:30 to 13:30 (all areas closed, track maintenance).

General rules of conduct on site

The charging of Lithium batteries has to be done in appropriate "Safety Bags" and only in the area of the paddock.

Flying drones (or other remote-controlled flying objects) for the purpose of taking pictures or videos is strictly prohibited!

This applies to the entire area of the Mammut Freizeitpark.

Controlling video cameras (installed in the vehicles) via WiFi connections, e.g. via smartphones,

superScale 2025

should again be avoided, or not be done via 2.4GHz.
Turning off transmitters and vehicles when not in use.

Why all this: for safety reasons and to avoid damage due to radio interference, etc.

To the dog owners among you:

Dogs must be kept on a lead in the Mammut.

It goes without saying that any droppings must be disposed of appropriately and without being asked.

Game rules

SPIELREGELN / GAME RULES

- 1 VORSICHT, MODELLBAUTEN
1 CAUTION, model constructions

- 2 NICHT AUFEINANDER AUFFAHREN

BETRETEN
5 Only enter authorized areas

- 6 INNERHALB DER
STRECKENBEGRENZUNG FAHREN
6 Driving within the track limits

Event area

Camping & Offroad Leisure Park Mammut
Linnenkämper Straße, 37627 Stadtoldendorf

Parking facilities/ Arrival

We will use the entrance of the leisure park at Linnenkämperstraße on the event weekend - the arrival of superScale participants, campers and visitors will be exclusively via this superScale entrance.

Visitors of the leisure park will take another exit at Linnenkämperstraße this weekend.

There will be appropriate signposts from Linnenkämperstraße.

superScale 2025

The parking lot for superScale participants and visitors will be located directly to the left in front of the superScale entrance (approx. 1-3 ha of meadow, depending on demand).

In general, parking is not allowed outside the camping areas and the parking area.

Parking is absolutely prohibited in the entrance and exit to the site.

In the parking area there will be reserved special areas for participants/ visitors with (walking) disabilities.

Paddock

Pavilions (typ. 3x3m) can be set up again without charge in the paddock area.

Reservations for stands are not possible - we ask to note this.

The paddock will be opened for participants on Friday at 3pm.

There will be a loading and unloading zone to unload pavilions, etc. and reload them on departure.

Power connections for charging batteries are available.

Special area for construction machinery / trucks suitable for construction sites

For interested superScale participants with construction machinery and trucks suitable for construction sites (tipper function, etc.) in scale 1:16 to 1:12, we have reserved a specially reserved area in the over 3000m² Freescale area.

The reserved "construction machinery area" itself always remains closed to all other vehicles!

Whether plastic or full metal - whether electric or additionally hydraulically operated - that is open - only the model scale must fit.
